

Below are a list of useful websites that are a valuable tool in supporting your child with their studies. Many cover all year groups and subjects, e.g. bbc bitesize and the national academy. Some websites are subject specific, e.g. hegarty maths is Maths, funkyclub is French and bluesquare thing is Creative iMedia. Please encourage your child to do some home learning by logging on to the sites, watching the accompanied videos and completing the tasks. Some of the websites will require a login and password, your child will have been issued one by their teachers.
