Dear Parent/Carer

What a great week this week has been! We started to run our first after school activities and I have had many good reports from children who enjoyed them. We hope to keep a variety of activities on offer throughout the year, please keep an eye out for new ones starting. I would like to say a big well done to Community 4 who had a film afternoon today for filling up their token tube last week. Community 2 filled theirs this week and chose to have an afternoon of games in the ball court next Friday. We also had a visit from Chris Edwards our EOS coach for REAL Projects, who enjoyed hearing about our project launches and visiting our classrooms.

Message from West Yorkshire Fire and Rescue Service

We would like to remind parents and carers to always read and follow the instructions carefully when using chemical insecticide products, typically sold in chemists, to treat head lice. This is because these treatments contain flammable elements. You should not therefore use hair dryers, or any other ignition source such as matches, lighters and candles near anyone during the treatment process whilst the product is being used. This advisory note follows a recent incident in West Yorkshire in which a child's hair was accidentally set alight during treatment resulting in the child sustaining serious injuries.
